1st Step Prayer

Dear Lord, Help me to see and admit that I am powerless over my alcoholism. Help me to understand how my alcoholism has led to unmanageability in my life. Help me this day to understand the true meaning of powerlessness. Remove from me all denial of my alcoholism.

(This prayer is developed from the chapter, More About Alcoholism)

"Carrying the Message is the basic service that our fellowship gives, this is our principal aim and the main reason for our existence. Therefor A.A. is more than a set of principles, it is a society of alcoholics in action. We must carry the message, else we ourselves can wither and those who haven't been given the truth may die. Hence an A.A. service is anything whatever that helps us to reach a fellow sufferer - ranging all the way from the 12 Step itself to a 10 cent cup of coffee and to A.A.'s General Service Office for National and International action. The sum total of all the services is our Third Legacy of service."

Step 1

“We admitted we were powerless over alcohol – that our lives had become unmanageable.”

MOST OF US have been unwilling to admit we were real alcoholics. No person likes to think he is bodily and mentally different from his fellows. Therefore, it is not surprising that our drinking careers have been characterized by countless vain attempts to prove we could drink like other people. The idea that somehow, someday he will control and enjoy his drinking is the great obsession of every abnormal drinker. The persistence of this illusion is astonishing. Many pursue it into the gates of insanity or death.

We learned that we had to fully concede to our innermost selves that we were alcoholics. This is the first step in recovery. The delusion that we are like other people, or presently may be, has to be smashed.

We alcoholics are men and women who have lost the ability to control our drinking. We know that no real alcoholic ever recovers control. All of us felt at times that we were regaining control, but such intervals—usually brief—were inevitably followed by still less control, which led in time to pitiful and incomprehensible demoralization. We are convinced to a man that alcoholics of our type are in the grip of a progressive illness. Over any considerable period we get worse, never better.

We are like men who have lost their legs; they never grow new ones. Neither does there appear to be any kind of treatment which will make alcoholics of our kind like other men. We have tried every imaginable remedy. In some instances there has been brief recovery followed always by a still worse relapse. Physicians who are familiar with alcoholism agree there is no such thing as making a normal drinker out of an alcoholic. Science may one day accomplish this, but it hasn't done so yet.

It is a spiritual axiom that every time we are disturbed, no matter what the cause, there is something wrong with us. If somebody hurts us and we are sore, we are in the wrong also.
